- ✓ Unlimited content updates - handled by our team
- ✓ Standards compliance validation
- ✓ Hosted on Atomic8Ball's cloud servers
- ✓ Ticket notifications for every change

Why Choose This Plan

EXECUTIVE · PRE-DESIGNED

1 Room to grow

The Executive product supports up to 100 pages - the depth a county site needs for departments, meeting minutes, ordinances, forms, and public notices without hitting a ceiling.

2 Zero maintenance burden on staff

Unlimited content updates are handled by our team - send us the change and we do it. County staff stay focused on serving residents instead of wrestling with a CMS.

3 Predictable, budgetable cost

Flat monthly pricing with no per-update or per-page charges - easy to line up with the county fiscal year and no surprise invoices.

4 Reliable & secure by default

Managed cloud hosting, standards compliance validation, regular audits, and 2-business-day turnaround on content requests - so the public-facing site stays trustworthy at all times.
